Organ Harvesting—Trillium Gift of Life Network

TGLN facilitates
organ donations
in Ontario

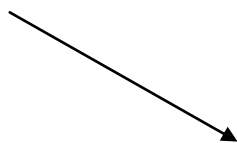

Registered donors
increased by 19%
since 2012

One donor can
save 8 lives

**Multiple Organ
Dysfunction
Syndrome** - when
two or more organs
are rejected in the
recipient's body

The organ highest on
demand on the waiting
list is the kidney

Canadian comedian
and TV personality
Rick Mercer
advocates for
national organ
registry

27% Ontarians are registered
donors, only 10% of demand
for organ donations is met

Organ Harvesting—Trillium Gift of Life Network

2000 - “Halifax Protocol”: first successful combination of two anti-rejection drugs in the world

Most common reasons not to donate organs is due to religion or fear of losing body integrity

There is controversy about reimbursing donors

People with dementia, HIV or rabies can't be donors

Black marketing of organ trafficking a multi-million dollar industry and costs up to \$200 000/organ overseas

Would you be a donor?
